14 Attorneys for Defendants  
KIM EMBRY & ENVIRONMENTAL HEALTH ADVOCATES, INC.

**UNITED STATES DISTRICT COURT  
EASTERN DISTRICT OF CALIFORNIA**

18 || B&G FOODS NORTH AMERICA, INC.

Case No.: 2:20-cv-00526-KJM-DB

## **DECLARATION OF ISABELLA ORDONEZ**

**Judge:** Hon. Kimberly J. Mueller  
**Magistrate:** Hon. Deborah Barnes

**Complaint Filed:** March 6, 2020  
**Trial Date:** None Set

**Plaintiff**

vs.

21 KIM EMBRY and ENVIRONMENTAL  
22 HEALTH ADVOCATES, INC., acting as  
23 enforcement representatives under California  
Proposition 65 on behalf of the State of  
California,

**Defendant.**

1 I, Isabella Ordóñez, declare:

2       1. I am a Legal Assistant for Entorno Law, LLP, the law firm that represents  
3 Defendant Environmental Health Advocates, Inc. (“EHA”) in prosecuting citizen enforcement  
4 actions under Proposition 65. I submit this Declaration in support of Defendants EHA and Kim  
5 Embry’s (“Embry”) Motion for Summary Judgment. If called upon as a witness, I would testify  
6 to the following facts based on my own personal knowledge.

7       2. I was asked by Jake Schulte, counsel for Defendants, to research and compile a list  
8 of Defendants’ successful prosecution of acrylamide Notices of Violation (“NOV”) – i.e., NOVs  
9 that resulted in either (1) an out-of-court settlement, (2) a court-approved consent judgment, or (3)  
10 a judgment in Defendants’ favor.

11       3. I began by reviewing the list of 771 acrylamide NOVs attached as Exhibit A to the  
12 Declaration of J.R. Holliday<sup>1</sup> where – as part of this litigation – Mr. Holliday previously compiled  
13 a list of acrylamide NOVs brought by Defendants stretching from February 27, 2017 (the first  
14 acrylamide NOV brought by Embry) through August 19, 2022 (the last acrylamide NOV brought  
15 by EHA). Mr. Holliday (a former Research Associate of EHA) compiled the list by extracting  
16 publicly available data from the California Attorney General’s (“AG”) website regarding  
17 Defendants’ acrylamide NOVs.

18       4. Mr. Holliday’s list did not indicate which NOVs resulted in a settlement or  
19 judgment. To ascertain which acrylamide NOVs resulted in either (1) an out-of-court settlement,  
20 (2) a court-approved consent judgment, or (3) judgment in Defendants’ favor, I undertook the  
21 following review. First, I searched the AG’s website – by inputting each unique AG number and  
22 product name associated with the acrylamide NOVs identified on Mr. Holliday’s list – to locate  
23 and extract settlements or judgments associated with each respective NOV. Second, I searched  
24 Entorno Law’s internal computer system, which retains records from both Embry and EHA’s  
25 prosecution of Proposition 65 matters, to further locate and extract settlements or judgments  
26 associated with each respective acrylamide NOV.

27       5. In conducting the above search, I determined that Mr. Holiday’s list inadvertently

---

28 <sup>1</sup> Mr. Holliday’s declaration is attached as Ex. A to the Schulte Dec. at Embry EHA\_000115-127.

1 contained 206 duplicate NOV entries. *See, e.g.*, Ex. A to the Holliday Dec. at 128-30, 142-43,  
2 246-47 (the same AG number and product name is listed). In other words, instead of 771 total  
3 NOVs, I determined the true number of unique/operative acrylamide NOVs brought by Defendants  
4 over a 5-year period from 2017-2022 was actually 565.

5       6. Following my search, I was able to locate and extract a total of 151  
6 settlements/judgments evidencing successful acrylamide NOVs brought by Defendants,  
7 specifically: 97 court-approved consent judgments, 53 out-of-court settlements, and 1 court-  
8 approved default judgment. Attached hereto as **Exhibit A** is a true and correct copy of the list I  
9 compiled.

10       7. Defendants have attached all 151 settlements/judgments, as Exhibits 1 through 151,  
11 to their Request for Judicial Notice in support of their Motion for Summary Judgment.

12       8. The columns of **Exhibit A** identify the (1) operative and/or previous AG number(s)  
13 associated with each settling NOV; (2) the product(s) identified in each NOV/settlement; (3) the  
14 civil penalty amount associated with each settlement; (4) the attorneys' fees and costs award  
15 associated with each settlement; (5) the total value of each settlement; (6) the settlement date; and  
16 (7) the resolution status of each successful NOV – i.e., consent judgment, out-of-court settlement,  
17 or default judgment.

18       9. According to the Microsoft Excel formulas related to adding up the civil penalty  
19 and attorneys' fees columns, which I independently verified through my own calculation,  
20 Defendants' acrylamide prosecution has resulted in a total recovery of **\$7,180,450**, broken down  
21 as follows: **\$743,925** in civil penalties (75% of which are directed to the State of California, Cal.  
22 Health & Safety Code § 25249.12(c)(1)) and **\$6,436,525** in attorneys' fees and costs. A further  
23 breakdown of these figures, including the recovery achieved by each Defendant, is included in the  
24 below graphic:

25

26

27

28

	Total	Civil Penalties	Attorney Fees
Both Defendants	\$ 7,180,450.00	\$ 743,925.00	\$ 6,436,525.00
Embry	\$ 2,036,500.00	\$ 216,250.00	\$ 1,820,250.00
EHA	\$ 5,143,950.00	\$ 527,675.00	\$ 4,616,275.00

10. As shown by **Exhibit A**, many of the 151 individual settlements involve resolution  
 11 of multiple NOVs brought by Defendants – at least 184 separate NOVs by counting the “Operative  
 12 AG Number” column. Thus, one cannot simply divide 151 by 565 (the total number of operative  
 13 acrylamide NOVs brought by Embry/EHA) to ascertain Defendants’ overall “success rate” in  
 14 prosecuting acrylamide litigation. This is further complicated by the fact that, according to my  
 15 review of Entorno Law’s internal computer system, 67 of the total number of operative NOVs  
 16 brought by Embry/EHA remain in “active” status – i.e., the NOVs remain in active litigation or  
 17 are otherwise held in abeyance since they were issued less than 60-days before this Court’s  
 18 preliminary injunction went back into effect.

19 11. In light of the above, I believe **36.95%** is the most accurate representation of  
 20 Defendants’ overall “success rate” in prosecuting acrylamide litigation. I achieved this percentage  
 21 by taking the total number NOVs settled (184) and dividing that figure by the total number of  
 22 operative acrylamide NOVs brought by Embry/EHA save for the ones that remain in “active”  
 23 status ( $565 - 67 = 498$ ).

24 I declare under penalty of perjury under the laws of the United States that the foregoing is  
 25 true and correct. Executed on July 19, 2024, in San Diego, California.  
 26  
 27
